
B143 Found in a New York City Precancel

Terry W. Sitch (#3809)

After sorting my pile of prepers by city, it was time to find the patterns in the catalog. Many of my New York perfins were only E rated. Then I came to one I could not find listed in the catalog; pattern B143 in US Sc#632 on which was a clear New York City precancel (PSS Type #63).

Shown are both sides of this new find which adds

another challenge to that faced by preper collectors and new data for the US Catalog Editor.
